Women in Action

Our Mission:

Uplifting Christ in the church and in the world. There are three areas of focus when it comes to equipping and inspiring women to serve.

Nurture – reach up:

To help women in their devotional time and personal growth, enabling them to be nurturers in the church and community.

Empower – reach across:

To equip women for their activities and projects for church and community by offering leadership seminars and encouraging them to learn about the different needs of women and providing necessary tools for outreach.

Outreach – reach out:

To help women use their talents in small and large group fellowship to reach others in their community.

We will continue to concentrate on all three areas, but outreach will be the main emphasis for the coming years, starting in 2014 with the 1st Inter-European Women's Ministries Congress 'Women in Action'. This congress will provide inspiration and tools for this task.
